

Roses and Dragons.

When it comes to works of art, in extra virgin olive oils, it comes to Xtrísimo Dintel. There is nothing alike because we wanted it that way. Just pour it on anything you may eat and the difference will surprise you right away.

No other extra virgin olive oil received more thought in the making... We wanted it fruity, like the freshest Arbequinos, as well as deep in the character of the Cornicabra. Stable and joyfull, slightly *picant* but almondy. Outstanding!

Even the photographer thought about roses and dragons. He never returned the case of bottles.

We guess he tried to find the right image!

Product Info & Labelling. We want to share the many efforts we put in the making of every product. All our olive oils carry as much information as we can get in the label, including bar codes, batch/lot numbers, nutritional facts, consumption recommendations and dates. Bold descriptions and straight graphics to help the consumer understand the characteristics of every oil bottle, in compliance with strict international regulations as to olive oil labelling.
